

GRILL CABIN 16.5 M² + 16.5 M²

PRODUCT DESCRIPTION

If you're looking for versatile place for barbecue with a relaxation feel, a wonderful Grill Cabin 16.5 m² + 16.5 m² is a great choice for up to thirty-five people.

In one of the cabins there is a wood-fired grill and a table around it. The other one is empty and it could be anything you want it to be! It is great way of adding extra indoor space to your home. You can use the free space for any purpose you can think of. Turn it into a cosy bedroom or playhouse for all year round.

High-quality materials ensure the longevity of a grill house and easy use. Double grill Cabin walls are made of rounded spruce boards with the dimensions 45 x 145 mm.

The roof is covered with bitumen shingles (different colors can be selected), and there are nine double glazed windows, four which open.

FOUNDATION

It is very important to have a proper base for your Grill Cabin. Therefore, we recommend following our sketches and consulting a qualified local builder or engineer. Making sure that the base for your product fits the location is of utmost importance.

Due to an improper base, the structure may crack. If the product is unevenly seated, the geometric shape of the building may change, which can result in the door/windows twisting, and/or gaps. In the worst-case scenario, the product may even collapse.

- Before building the base, make sure you take into account the landscape and the ground conditions on which the product will stand.
- The base under the product must be prepared specifically for the product.
- The base must be homogeneous, tight, and level.
- Make sure that the properties of the base do not change over time. We recommend making the base out of concrete and water-proofing it before installation.

If you do not follow recommendations for building the base, the product will lose its warranty!
